News on ACCCRN Vietnam Methodology
Workshop at NISTPASS 05-06/03/2009

The Asian

Cities Climate Change Resilience Network in Vietnam (ACCCRN Vietnam) supported by Rockefeller Foundation hold two day Research Methodology Workshop at the National Institute for S&T Policy and Strategic Studies (NISTPASS) Hanoi during 05-06 March 2009. NISTPASS designated by Rockefeller Foundation to be the Research Coordinator of the ACCCRN Vietnam has hosted the workshop with the participation of 29 experts, scientists and officials coming from US, Canada, Thailand and Vietnam (from Da Nang, Quy Nhon, Can Tho and Hanoi). The objective of the workshop is to identify and develop approaches and methodologies for designing research activities during the next ten months. The expected results of the workshop include: (1) Detailed TORs for key institutions involved through sub-contracts with NISTPASS; (2) Proximate to detailed research work plan to conduct in each city and coordinated with local city (and coordinated with Challenge to Change CTC) and (3) Work plan for each key partner institution.
